Process 5

Result

Undergo self-quarantine for 14 days. No need for testing.

Screen 1 (10:36 PM):

Do you have a Cough or Sore Throat or Cold?

May ubo ka ba o makati ang iyong lalamunan?

YES / OO   NO / HINDI

Screen 2 (10:37 PM):

Do you have colds or other respiratory illness?

May sipon ka ba o ibang karamdaman sa paghinga?

YES / OO   NO / HINDI

Result

Observe quarantine protocol in the area if any.

Process 6

ALGORITHM FOR COVID-19 CLASSIFICATION
AS OF APRIL 7, 2020

PATIENT

Influenza-like Illness sudden onset of fever AND cough or sore throat

YES →

Fulfill at least one of the following:
- With no other etiology that fully explains the clinical presentation AND a history of travel to or residence in an area that reported local transmission of COVID-19 disease during the 14 days prior to symptom onset
- With contact to a confirmed or probable case of COVID-19 in the two days prior to onset of illness of the probable/ confirmed COVID-19 case until the time the probable/ confirmed COVID-19 case became negative on repeat testing.

NO →

With any one of the following:
- Fever
- Cough
- Colds
- Sore throat
- Other respiratory sign/symptom

NO → **Observe quarantine protocol implemented in the area, if any**

YES ↓

Fulfill at least one of the following:
- Aged ≥60 years
- With a comorbidity
- Assessed to have a high risk pregnancy
- Health worker

YES ↓ **NO** →

NO → **Severe Acute Respiratory Infection** with **NO** other etiology that fully explains the clinical presentation → **NO** → **Refer for appropriate clinical management**

Undergo self-quarantine for 14 days and monitor for development of additional sign or symptom NO need for testing

YES / **YES**

CLASSIFY AS SUSPECT COVID-19 CASE

1. Verify and coordinate with RESU
2. Complete COVID-19 Case Investigation Form (CIF) and submit to RESU
3. Encode CIF data in COVID-19 Information System

• Mild Disease • Aged <60 years • No comorbidity • Not a High Risk Pregnancy • NOT a Health worker	**=** • **NOT a priority for testing** • **For facility-based isolation and appropriate clinical management**	• Mild Disease but with any of the following: Aged >60 years OR With a comorbidity OR Assessed as a High Risk Pregnancy OR A Health worker • SEVERE/CRITICAL	**=** • **Collect appropriate samples for testing** • **For facility-based isolation in a designated COVID-19 Facility** • **For appropriate clinical management**

Underwent laboratory confirmatory testing

NO ↓   **YES** ↓

Re-classify and manage as follows:

Retain classification as Suspect COVID-19 Case

Continue facility-based isolation and appropriate clinical management

NEGATIVE
Continue facility-based isolation and appropriate clinical management

PROBABLE
(Test result inconclusive OR test not done by NRL, SNL, or official laboratory)

Repeat testing, as needed
Continue facility-based isolation and appropriate clinical management

CONFIRMED
(Laboratory confirmed for COVID-19 done by NRL, SNL, or official laboratory)

Initiate contact tracing
Continue facility-based isolation and appropriate clinical management

Do you have a Cough or Sore Throat?

May ubo ka ba o makati ang iyong lalamunan?   — No →   **Do you have colds or other respiratory illness?**

May sipon kaba o ibang karamdaman sa paghinga?   — No →

Assessment

Observe quarantine protocol in the area if any,

Sundin ang palatuntuning inisasagawa sa naturang lugar, kung meron.   → **Save as suspectable case with LOW-Priority**

↓ Yes (from Cough question)

No known reasons of having the symptoms AND had a history travel to a residence in an area that reported local transmission of Covid-19 Or Had a contact to a confirmed or probable case of Covid-19 in the past 2 days

May travel history sa lugar na may Covid-19 case o Nakasalamuha ng taong kompirmadong may Covid-19?

↓ Yes (from respiratory illness question)

Age is more than 60 years old or Assessed to have a high risk pregnancy or a Health Worker?

Ang edad ay higit sa 60 o di kaya ay inabisuhang maselan ang pagbubuntis o di kaya ay isang Health Worker?   — No →

Assessment

Undergo self-quarantine for 14 days. No need for testing.

Magsagawa ng paglilimita sa sarili na makihalubilo. Hindi na kailangan na sumailalim sa Covid-19 test.   → **Save as suspectable case with LOW-Priority**

Yes (from travel history) → ... Yes (from age question) ↓

Assessment

High chance of a positive Covid-19 case. Please coordinate with the frontliner assessing you.

Mataas ang tyansang ikaw ay positibo sa Covid-19 makipagtulungan sa frontliner na nagsasagawa ng pagsusuri   → **Save as suspectable case with HIGH-Priority**

No (from travel history) ↓

Experience difficulty in breathing, dizziness or loss of consciousness?

Nahihirapang huminga, nahihilo o nawawalan ng malay?   — No →

Assessment

Refer for appropriate clinical management

↓ Yes
